

VIDIX CONTROL

Access Control for Every Facility

MOBILE CREDENTIALS AND TOUCHLESS MULTI-TECHNOLOGY READERS

Mobile

STANDARD FEATURES

- Innovative – Enable secure access with a mobile device by leveraging standard communications technologies that work with both iOS and Android operating systems.
- Convenient – Extended read ranges along with “Twist and Go” provides a purely mobile transaction. This includes utilizing Apple Wallet and Watch for a truly hands-free experience.
- Dynamic – Keep existing card populations while migrating to a more secure and enhanced mobile technology.
- Future Proof - Mobile credentials work with the new Signo Multi-Technology Reader Family along with the previous generation mobile enabled iCLASS and multi-Class Readers.
